

# AREC Online Director

## Real-Time Assistant in Video Making

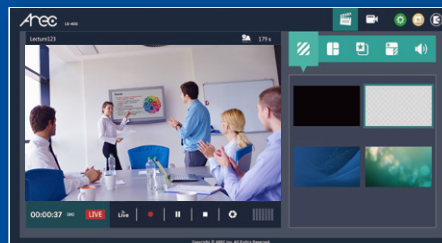

AREC Online Director is a live production and streaming solution for AREC LS and KL Series Media Stations via Software, Web Browser, and Touch-Friendly Graphical User Interface, which allows users to create a live video quickly and efficiently from a convenient device of their choosing, such as a laptop, desktop computer, touchscreen and more.

### Software

### Web Browser

### Touchscreen Graphical User Interface

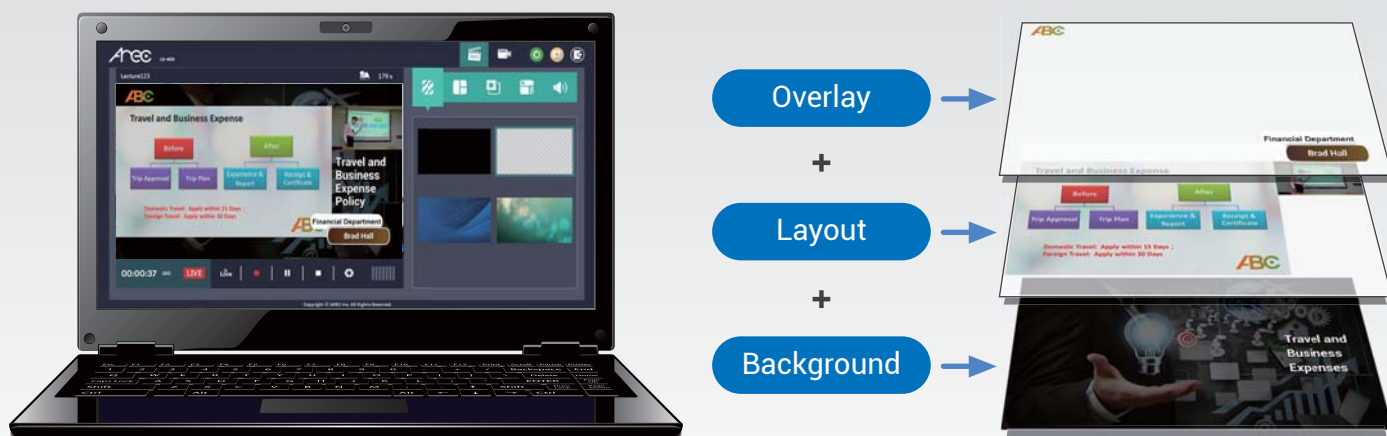

With intuitive interface design, AREC Online Director software allows users to enjoy the fun of being a video director easily, which enables organizations to create high quality live video quickly and efficiently.

## Product Highlights

- Video Mixer and Switcher for Live Production, Recording and Streaming
- Designed to be Used Exclusively with AREC LS and KL Series Media Stations
- 3 Kinds of Control Interfaces: SW-based, Web-based and Touch-Friendly GUI (Graphical User Interface)
- Intuitive and Easy-to-Use Design, Allowing Users to Enjoy the Fun of Being a Video Director Without Professional Skills
- Making Users Easily Switch/Mix between Sources, and Add/Remove Backgrounds and Title Graphics
- Enabling Organizations to Create High Quality Live Video Quickly

## Easy to Create a Professional Video

Designed to be used exclusively with AREC LS Series Media Stations, AREC Online Director Software can be downloaded and installed on the desk computer or laptop, making users easily switch/mix between sources, change recording/streaming layout, add or remove backgrounds and overlay graphics (titles) for live video production.
