

TableMIC

Conference Room Microphones

ORDERING INFORMATION

TableMIC Microphone

White 999-85000-000W (Worldwide)

Black 999-85000-000 (Worldwide)

OVERVIEW

TableMIC microphones connect to Vaddio products with EasyMIC ports to deliver professional-quality audio into your PC system for superior conferencing experiences.

Designed to reduce distracting noises that arise in the conference room, the TableMIC's solid metal base construction and engineered feet diminish table vibration noise that other table microphones experience.

The top of the TableMIC features a capacitive touch control surface for silent operation. The ability to enable and disable button functionality during configuration can further simplify the end user's videoconferencing experience.

With 360-degree coverage from three unidirectional condenser microphone elements, a single TableMIC microphone provides excellent coverage for most meeting rooms.

Each of the three unidirectional cardioid microphone elements in the microphone is equipped with integrated echo cancellation and Digital Signal Processing (DSP), including equalization, filtering and automatic gain control (AGC). The DSP in a companion product such as the Vaddio AV Bridge MATRIX PRO or EasyUSB Mixer/Amp provides an AEC reference from the far end and applies it to individual mic elements, so conference calls are crystal-clear on both ends of the conversation.

With its plug-and-play design, installation is simple: Just connect a standard Cat-5 cable between the TableMIC microphone and EasyMIC-compatible Vaddio equipment. Power, control and audio are all carried over the single cable. The TableMIC supports cable lengths of up to 100 feet (30 meters) between the microphone and EasyMIC ports.

WHAT'S IN THE BOX

- TableMIC microphone (black or white)
- 25 feet (7.6 m) Cat-5 cable (black or white)
- Quick-Start Guide

FEATURES

- Full 360-degree pickup coverage from three unidirectional condenser microphone elements
- Easy installation, plug and play design
- Echo cancellation for crystal-clear conference calls
- One TableMIC microphone is sufficient for most meeting rooms – use two for larger rooms
- Noise-free capacitive touch controls – mute/unmute, speaker volume up or down and camera trigger button
- Works with Vaddio products designed with an EasyMIC port (HuddleSHOT, AV Bridge MATRIX PRO, ConferenceSHOT AV Cameras, EasyUSB MicPOD I/O, EasyUSB Mixer/Amp)
- TableMIC is optimized for Skype, and works with all major cloud-based conferencing applications including Zoom, Microsoft teams, Cisco WebEx, GoToMeeting and others
- Pair TableMIC with HuddleSHOT for easy-to-use control in huddle spaces
- Sold separately or in convenient bundles with ConferenceSHOT AV

TECHNICAL SPECIFICATIONS

Frequency Response	100 Hz to 16 KHz
THD + Noise	< 0.02%
Dynamic Range	>90 dB
Operating/Storage Temperature	32°F to 104°F (0°C to 40°C)
Operating/Storage Humidity	10% to 80% (non-condensing)
Maximum Cabling Distance	100 ft (30 m)
Dimensions	Height 1.43 in. (3.6 cm) Diameter 5.05 in. (12.8 cm)

Specifications are subject to change without notice
