

LS-200 Media Station

- 2 Video Sources Mixing, Switching, Recording and Live Streaming
- Easy to Create a Professional Video
- Fully Integrated with Kaltura, Panopto and Opencast Video Management Systems

Main Features

Easy to Create a Professional Video

AREC LS-200, a lightweight and all-in-one Media Station, supports 2 Full HD video sources capturing, switching, mixing, recording and live streaming simultaneously for non-technical users to produce a creative video easily and efficiently. With LS-200, it's easy to stream mixed video to up to 2 platforms simultaneously, such as YouTube, Facebook, Twitch and other live broadcasting websites, allowing any participant to attend at any location in the world.

Capture Up to 2 Video Sources at the Same Time

Via HDMI, VGA, RJ-45 interfaces or streaming inputs, AREC LS-200 supports up to 2 Full HD 1080p video inputs. Users can choose 1 mixed video plus 2 individual videos recording for flexible use. LS-200 can mix audio via HDMI, 3.5mm stereo audio jacks and AREC wireless microphone.

Information Equipment

Real-Time Assistant in Video Making

With AREC Online Director, LS-200 allows users to be in control of their video recording/streaming in real-time. It makes users easily switch and mix between sources, add or remove logos, backgrounds and overlay graphics (titles) for live production.

Intuitive and Versatile Control Options

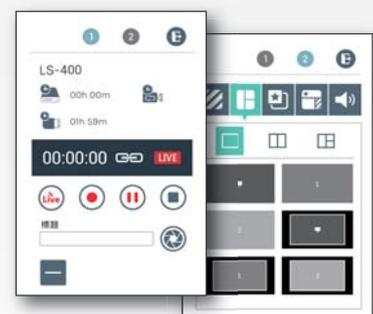

AREC Online Director supports a wide range of control options, including Web Browser (IE, Firefox, VLC), Software Application (Windows, Mac OS), Touch-Friendly Graphical User Interface, and Mini Controller from Mobile Device. All-new Mini Controller and Graphical User Interface design bring easier and faster control than ever. Control buttons on the front of LS-200 are also provided.

On-screen GUI & USB Interface*

Web/ SW-based Online Director

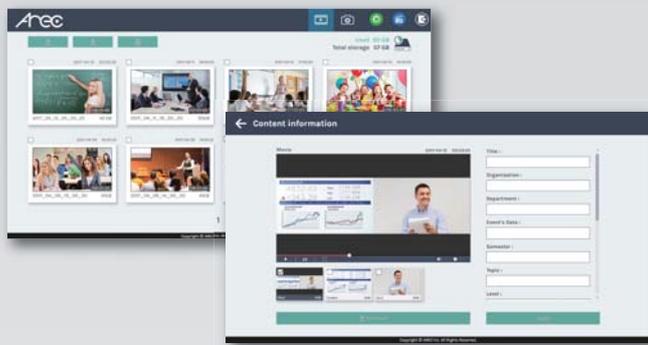

Mini Controller from Mobile Device

*The on-screen GUI supports mouse device control through USB connection.

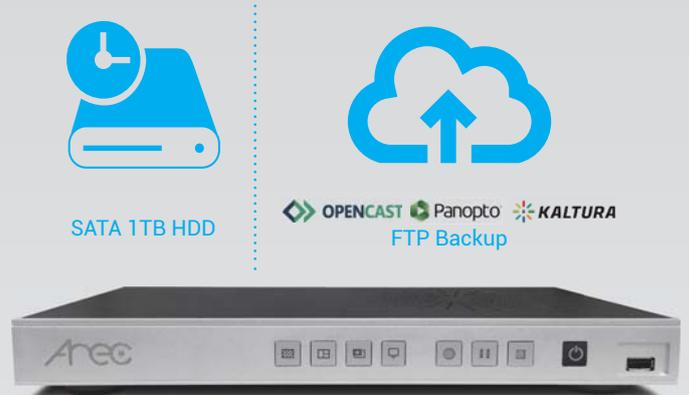

AREC Video Manager: Videos with Just One Click

With the built-in Video Manager, administrators or teachers can manage videos stored in the local LS-200 Media Station remotely. They can download, upload or delete a video file, and edit video information. With available APIs, all of the video content, metadata, and thumbnail can be delivered seamlessly for third party integration.

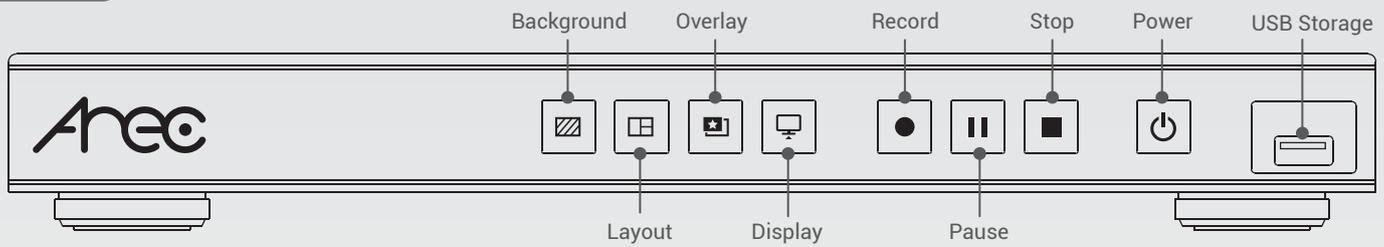

Backup & Upload Your Recordings

With internal 1TB hard drive, LS-200 can save hundreds of hours recording videos. To increase security, LS-300 can automatically backup or upload recordings to AREC MediaCenter, FTP, SFTP, Opencast, Kaltura, Panopto and so on.
